

Unit 2303

The unit was completely renovated including the following:

- Ceilings were raised in kitchen, dining and bathrooms and lowered in living room and bedrooms to allow for more consistent ceiling height and allow space to conceal electric wires and install LED lighting.
- Electrical panel was replaced, and wiring upgraded.
- Plumbing pipe and fixtures were replaced.
- Added a second HVAC vent in master bedroom.
- COREtec Luxury Vinyl Flooring throughout the unit.
- New interior doors and trim.
- Beadboard installed in entry way and bathrooms.
- Kitchen cabinet configuration changed allowing for better utilization of space, more cabinet storage and adding a pantry cabinet.
- Schuler cabinets and quartz countertops in kitchen and bathrooms.
- New black stainless appliances.
- Updated shower and glass door installed in master bath.
- New tile and glass doors in guest bath.
